

The image shows a complex web application interface. On the left, there is a dark red sidebar with a vertical list of menu items, some of which are highlighted. The main content area is white and contains a large, complex form or dashboard. At the top of the main area, there is a header with a logo and some text. Below the header, there is a large table or grid with multiple columns and rows. The table has a yellow header row and several white data rows. The interface is highly detailed with many small elements, including buttons, checkboxes, and text labels. The overall design is modern and professional, typical of a corporate or institutional web application.
